Summary

The two dowels for the vault door as a printable option.

[Art & Design](#) > [Other Art & Designs](#)

Tags: [dowel](#) [dowels](#)

Two dowels are required for the vault door. Instead of buying the metal variant, I simply and quickly 3D printed them. Perhaps a sensible option for you as well.

They fit perfectly for both Rocco's Original and my **EURO version** of the vault.

Printing information

Layer height: 0.2mm

Infill: 100%

Brim: recommended

I am looking forward to your Makes! :-)

If you like this design, feel free to check out my others [here](#).
