On a training flight over the forest of Lapland, Santa's sleigh has crashed. Can you help him get home in time for Christmas?

Video Guide

Overview:

Santa's Escape is a puzzle game for all ages, playable solo or as a team. Currently, there are nine puzzles in three different difficulty groups, with plans to add more. Consider this a work in progress.

My intention was to learn new skills and empower others creatively. In the PDF, you'll find a simple guide to making your own pieces to add to this game. It's so easy that even my 6-year-old could do it.

Everything has been designed for easy printing on a basic printer, with optional filament swaps to change colors at different layers.

How to Play:

1. Set up a puzzle as shown on a puzzle card; the more * the harder.
2. Slide Santa's sleigh off the board. Move sledges out of the way to clear the path. Anything that can leave the board may do so.
3. You can reset the puzzle at any time.
4. Most importantly, have fun and be creative.

Printing:

- 1x Sleigh
- 8x Present sliders
- 6x Tree sliders
- 4x Tree blockers

All will need supports, except for the tree and 6x6 grid; classic supports work well.

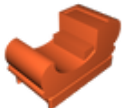

Feedback:

Please help me improve this game by filling out this short [feedback form](#).
