Summary

Ice fishing rod butt with a recess to fit a 20mm cabochon to place your logo inside the grip

I had a request to add a recess to the butt of the ice fishing rod grip set I have posted. I took my design and added one to fit a 20mm cabochon which is typically used in rod building. I also modeled this one to fit an ice rod that I had on hand that had a butt diameter of 6.4mm. If you are needing another diameter let me know and I can quickly update the original file.

I didn't have one of the 20mm cabochons on hand to test the fit, so if for some reason there are issues with it, please let me know and I can change the design a bit.
