I wanted to try and make a Poison Apple Decoration for Halloween / Christmas, so I made this on Sculptris.

It prints quite well at 100% with no supports though for a Real Apple size you may want to scale it up to around 160 to 170%.

you may also want to sink it into the bed slightly to give more purchase on the bed if you are going to print without supports.

I hope you enjoy.

Thanks
