Summary

Kitchen countertop housing for socket (Trendiswitch)

[Household](#) > [Kitchen](#)

Tags: [kitchen](#) [plug](#) [socket](#) [powersocket](#) [countertop](#)

Needed some sockets on the countertop and didnt want to spend a fortune buying some especially since I already had some leftover wall sockets.

This specifically designed for Trendiswitch sockets but I think socket screw locations are standardized so it might fit any UK type doublesocket. Didnt test that.

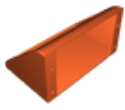

There is a left and a right piece just for esthetics.

Solidworks file attached if you want to edit or remix.

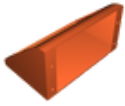

Would be great to see some makes ;-)

Happy Printing
