### Summary

A tamper to push down your freshly ground coffee in to the reusable coffee pods.

Tags: [bosch](#) [coffee](#) [pod](#) [tamper](#) [tassimo](#)

I bought a Bosch Tassimo machine and was disappointed that the pods are re-usable.

So, I bought re-usable ones from Amazon with a container and rubber lid.

However, to make a good cup of coffee, a tamper is required to push down the coffee.

I've designed this model to press down the coffee.
