A fully printable, no painting needed, multi color print of the Vampiric Council Medallion from the TV show "What We Do in the Shadows". The 3mf for the medallion is just a painted on stl that I remixed. However, I created the chain necklace pieces for this model. Chain necklace is not print in place and requires manually connecting together. Typically 2-3 prints of the links should be enough to make the necklace for any size of person.

Print instructions

Printer Brand: Prusa

Printer: I3 MK3S

Rafts: No

Supports: No

Resolution: 0.15 (I would not use anything larger than this or else significant detail will be lost)

Infill: 15-20%

This remix is based on
