### Summary

A printable wax seal with ribbon.

[Art & Design](#) > [Other Art & Designs](#)

Tags: [seal](#) [ribbon](#) [wax](#)

I needed a wax seal for a birthday present and couldn't find any free ones on the net.

I design this to be printable and can be fixed to the item with glue.

A red filament looks great with this!

The picture shows a personal message, but the model is blank so you can add your own message in the slicer or 3D modelling application.
