Video tutorial [ENG Sub]

Summary

Some people told me that the first ring was too big for their printers, so I created this little one (< 11 cm).

TUTORIAL (English SUB):

All the components : https://jeje-linge.fr/en/products/lord-of-the-rings-mini-lamp

Code : https://github.com/jejelinge/MINI_LOTR_LAMP

Libraries : Adafruit NeoPixel by Adafruit

This is pretty simple to make and everybody will stuck on this lamp.

YOU HAVE TO USE WHITE PLA OTHER COLORS WILL BE TOO DARK AND THE LIGHT WON'T GO THROUGH.
