All, this is not a remix of another's but was purely inspired from an online video short. Please go to <https://www.printables.com/model/590620-brain-teaser-54-pcs-puzzle> first before downloading this model. Her posting came before mine, please support her model first by like and download.

**UPDATE** added Fusion360 archive.

You will need to print 54 pieces of the puzzle piece and just one of the holder. Happy printing and solving :)

Nozzle = 0.4mm
