Summary

A hook for bathroom glass shower available in various glass thickness and width.

Household > Bathroom

Tags: hook window bath bathroom 10mm glass 16mm 5mm 15mm shower 8mm 7mm 9mm 6mm hooks 20mm 19mm 18mm glassshower 14mm 12mm

First iteration:

A hook for glass shower in the bath with 8mm or 9mm thick glass and 12mm or 15mm width.

The spacing for the glass is 8.2mm or 9.2mm and depending on the printer tolerances might fit loose or spot on.

All corners and edges are rounded for better aesthetics, but they seem to work very well even for big towels.

Update 26.12.2023:

Added files for 5mm, 6mm and 10mm glass thickness.

Update 11.01.2024:

Added more glass thickness files. Now the complete list includes:

5, 6, 7, 8, 9, 10, 12, 14, 15, 16, 18, 19, 20 mm glass thickness in both 12mm and 15mm hook width.

Print recommendations: Any material, except soft material for obvious reason, 10-15% infill could be enough, and 0.2mm layer height. Layer height could also be greater but the rounded corners would be too rough.
