## Summary

Keeps your BiOrb clean while feeding.

[Household](#) > [Pets](#)

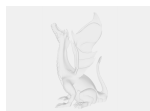

Tags: [aquarium](#) [fish](#) [funnel](#) [biorb](#)

Pick the correct model for your BiOrb light - MCR large or small for the multi-colour LED cover with the elongated feeding hole, Classic for the original LED cover with the round feeding hole.

If you are not sure which size MCR light you have, go for the small version as this will work on both sizes.

Print with the large end of the funnel on the print bed. I used PLA, but any filament should be fine.
