I thought this adorable little dog designed by MatthiasL would make a perfect decoration for the paper towel holder kit I designed.

All the models are hollow for a fast print and a light structure. If you want a holder for paper towel, print two rods ; if you want a holder for toilet paper, print only one rod.

My print settings:

Base and Rod:

- 0.6mm nozzle
- 0.3mm Layer height (if you print them with a 0.4mm nozzle, use a 0.2mm layer height)
- No supports

Top:

- 0.4mm nozzle

- 0.2mm layer height for the screw and the stand; 0.1mm for the dog
- Brim activated
- No supports

This remix is based on

Cute Sitting Low Poly Dog (No Supports)
