Summary

Simple toothbrush holder for Oral-B electric toothbrushes, easy to print and can simply be glued to your wall.

This toothbrush holder is designed specifically for Oral-B electric toothbrushes and should fit all models. It provides a convenient storage solution for both the toothbrush and one brush head. The toothbrush sits securely on the mount but is still easy to grab. For easy wall mounting, I recommend using strong double-sided tape or, for an even more secure hold, silicon.
