Summary

Wall Mount for 36V/40V Black and Decker Lithium rechargeable batteries

[Hobby & Makers](#) > [Organizers](#)

Batteries taking up way too much shelf space...? Not any more!

Countersunk the holes for a standard deck screw. Holes are centered for easy stud mounting.

Compatible with 36V/40V Lithium Batteries.

Model #s: LBX1540, LBXR36, LBXR2036, LBX2540, probably more.

Printed with:

- PLA

- 15% Infill

- No Supports if printed in default orientation (shown in first picture)

- Brim may be advisable as it's designed to print standing upright - Mine printed fine without any

(Credit to [whatsacc](#) for his **Flexible printable cloth** that I'm using as a backdrop)
