### Summary

I needed a taller bumper for the A2, so I designed one.

I needed a taller bumper for the A2, so I designed one.  
It fits the stock bumper mount and it also fits this trolley handle <https://www.aliexpress.com/item/1005005871999876.html>

Print it in TPU or another flexible material (is there any other?)  
6-8 walls, 25% infill

Hope it helps someone :)
