Summary

Stick it on the side or under your desk. Choose the number of slots you desire!

Tags: [organizer](#) [cable](#) [desk](#) [charger](#) [wire](#) [mont](#)

The model can be parameterized, use the parameter “number_of_slots” to change the desired length.

You can print several of them and create a cable management system.

I recommend using soft material, such as TPU.

I used double-sided tape to fix it.

If you like it, post your make!
