Summary

This cool vase has many triangular faces to reflect a lot of light!

This cool vase has many triangular faces to reflect a lot of light!

The model is small, so scale it to your liking! Print in vase mode with 0% infill, 0 top layers, and 1 perimeter. I like to use a wider external perimeter extrusion width to increase the strength of my vases!

Are you interested in selling your prints of my designs? Join my [Printables Club](#), and start making with your idle printers!
