737 Max- Side View - Silhouette v2

Side view of 737 Max aircraft. Silhoutte is approx 600mm x 200mm x 5mm.

I've included the entire model in one file and also separate pieces that fit on a MK4.

Simply print and glue together. I used small mini binder clips as clamps. Just make sure to let the glue dry good.

Note:

Ver 2: Fixes line going through engine. Fixes where forward and aft doors

are more distinct.

Ver 3: Fixes tail to make more accurate as far as panels are concerned.
