This is a full dice set for your tabletop games and roleplaying! All of the dice and the jawbone are printed flat on the bed and prints support free. The dragon jawbone can store up to two dice sets with an optional slot to store a single D2 dragon scale. Additionally, the top of the jawbone works

as stand for either a pencil, brush or a wand.

The dice should be fairly balanced, just remember to print the D20 with the same amount of top and bottom layers if you FDM print :) The D20 rolls in a fun and unpredictable way, toppling back and forth.

There's a pendant version that has a support free hole in the base, where you can attach a string to turn it into a necklace or a charm.

About the dice:

The Dragon Teeth Dice Set started out as a single D6, the "Dragon Cola Die D6", which was part of the Campaign Event for Mythic Potions. We were encouraged to make it into a full set including a jawbone,

You can read more about the event and the Kickstarter here:
