

## Laptop "sled" stand

[VIEW IN BROWSER](#)

updated 6. 1. 2024 | published 6. 1. 2024

### Summary

A simple 3d printable stand for almost any laptop

[Gadgets](#) > [Computers](#)

Tags: [stand](#) [laptop](#) [laptopstand](#)

It has an inclination inclination of 14° and raises a laptop by roughly 6-7 cm.

You will need to print the same file twice to have two legs.

Ideal for use with a second monitor.

The "sled" shape also stops the computer from closing completely, helping you open the lid if you close it.

(original model, reupload from my old Thingiverse account)
