Summary

This is a stand for painting and drying flat objects. You'll need at least 3 of them. Includes a dowel hole.

Tags: [stand](#) [painting](#) [cone](#) [drying](#)

This is a cone design that can be used, in multiples (you'll need at least three to balance a flat object), to make a stand to paint objects, flip them, let both sides dry.

There is a through-hole on the stand to allow the insertion of dowels in order to create more rigid frameworks, or use the dowels for racking, etc.
