This is the Bathroom Accessory Storage Box 1.0! It comes with 6 slots inside to put "stuff" in, as well as two smaller containers beside the "stuff," area to put other "stuff!" On the front of the box, there is a drawer that you can put your secret stash of candy in too. 🤪 Or just more "stuff." Beware though that the drawer may not easily slide into the slot where it is supposed to go (Some sanding may be required). The top of the box has an M on it. If you want to change the letter or get rid of it completely, just open it in your 3D modeling software (tinkercad is the easiest to do this by far) and what you do with it is completely up to you!
