### Summary

Key cap / case that you can open and close.

[Household](#) > [Other House Equipment](#)

Tags: [case](#) [gadget](#) [glue](#) [snapfit](#) [key](#) [keycap](#) [keys](#)  
[organize](#)

This is the key case that you can open and close. There are two variants: with snap connections and flag.

For the snap one I recommend using smaller nozzle like 0.2 mm, do the snaps can be printer.

The flat one can be printed with standay 0.4 nozzle. This is a tight fit, but you can use a little bit of glue to prevent it from opening.
