Modern design combines practicality with a touch of nature-inspired elegance.

Transform your bathroom, hallway, or living room into a place of beauty. Bird-shaped hangers are available in two versions, one featuring charming cutout details with an eye and wing (that doubles as a hole for clothes hangers), and the other designed with minimalism in mind, featuring a clean shape. The set includes a second part—a clip for secure wall fastening using two M3 screws (and wall plugs).

Don't print sitting on the tail because all the stress would be in the print line direction.

The best way is to print the whole flock!
