Summary

Dice sets for 4x4, 5x5, and 9x9 Boggle.

[Toys & Games](#) > [Board Games](#)

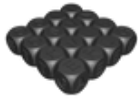

This follows the new boggle configuration made some time in the mid 00s for regular (4x4) and Big Boggle (5x5). There's also a 9x9 version for the tray put up by Greg Clancy. You can find his model here:

<https://www.printables.com/model/640429-boggle-9x9>

The 9x9 set is two each of the smaller sets minus one AAEEEE dice.

I also included the Fusion file if you want to make your own or don't want to wade through all the dice for a specific one. I know there's a similar one on this site already, but this model is more rounded. The rounding makes it more similar to authentic Boggle dice, and probably settles a little easier in the squares.
