Remix of the Encanto Bruno's Vision Litho by thedarkotaku88 on Thingiverse: <https://www.thingiverse.com/thing:5229694>

I imported mesh into fusion 360 and played a bit - I printed this in CLEAR PLA, making it pretty thick with infill - I didn't print as traditional lithograph.

I then used airbrush to paint green - worked great. Hope someone else gets to make a toddler a cool bruno vision prop they like. (threw in the lithograph image also in case someone wants it)

I printed mine with a 15% cubic infill.. it really didn't turn out nicely (you can see hatch pattern even after painting... If I was to do it again, I would recommend using a 100% infill with white PLA (I don't think the clear PLA + paint job worked liked I was hoping)

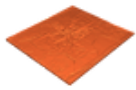

This remix is based on
