Summary

I sketch and paint with watercolours and wanted a template with different geometric shapes. This is the result.

I created this template (in TinkerCAD) to assist in my ink sketches and watercolour paintings. The various geometric shapes can be used individually or together. Great tool for adults and children. The slim, compact design means it will easily fit in a sketchbook or art portfolio.

The template can be used with regular pen/ink, pencil, coloured pencils, slim markers, even fountain pen (F or M nib - I haven't tried with a Broad nib).

On my Neptune 3 Pro this took 2 hours and 25 minutes. Nozzle set at 205/205 and Bed at 70/70 Fan at 255. All other settings were automatically set by Cura.

Size: 175.7mm x 175.7mm x 1mm
