### Summary

Inspired by the Customizable Origami Series by Dennis H, here are a few Pokemon-themed ones.

Inspired by the [Customizable Origami Series](#) by [Dennis H](#), here are a few Pokemon-themed ones we made for friends.

These are made and sized to fit the IKEA Sannahed frame (12x12cm inner region).

The separate facial features may be a bit fiddly. We printed them in thinner versions to make it easier to glue onto the paper in the frame.

The Pokemon we made are: Snorlax, Charmander, Magikarp
