Mix and Match Colors:

This model comes with separate frames and line patterns for the earrings and pendant, so have fun printing them in different colors for a unique look!

Clip and Go:

No fiddly hooks or clasps - simply clip these beauties on and you're ready to shine. I designed them with a snug fit (0.05mm clearance), so they'll stay put without pinching.

If they're a little loose, a dab of glue will do the trick. If they're too tight, a quick sand is all it takes.
