A simple square-shaped receipt holder.
Easily pierces the receipts, and they stick really well if you print with a 0.2mm layer height due to the layers of the spike.

The design includes a hanger at the back so you can hang it on a nail in the wall.

Print Settings

Printer Brand:

Prusa

Printer:

I3 MK3S

Rafts:

No

Supports:

No

Resolution:

0.2

Filament: Prusament PLA

Notes:

Print with 0.2mm layer height for a rougher spike texture, which helps the receipts stick as you thread them on.
