

Din Rail Bracket

Potato Stardust

[VIEW IN BROWSER](#)

updated 7. 1. 2024 | published 7. 1. 2024

Summary

Remix of an already decent model.

[Hobby & Makers](#) > [Electronics](#)

Tags: [dinrail](#)

Model prints well in PETG. PLA might work better as the spring tend to be a little too compliant when printed in PETG.

This should be a drop in replacement for the commercial bracket.

This remix is based on

DIN Rail Bracket - Heat Insert Version - 52.5mm & 62.5mm
