Information

A cat. And it holds your toothbrushes. That's it :)

Print Settings

Good print settings:

- Supports ON
- Infill Grid 10-20%
- SCALE IT UP depending on how big you need it!

Also:

Pausing the print and filling the legs with something (sand for example) makes the model heavier so that it'll fall over less. But again, this is a personal preference and not really necessary in my experience.

+ Happy printing! +
