### Summary

A small holder for twelve 1/4" sockets for the IKAS Skadis Board.

I liked the original model as a neat holder for my 1/4" sockets. But with 16 slots it was too large for my Wera Zyklop Belt. Therefore I reduced the number of slots to 12, keeping the rounded edges and the original hooks.

To hang the tray to your Skadis Board you need 3 hooks from the original model. They are a tight fit, so be careful when installing them. I used a plier to press them in place. You can add some glue but I don't think it's necessary.
