### Summary

Why pay \$50-100 for an All-in-One BAGGIE & WRAP ORGANIZER? Never Again with this Print!

[Household](#) > [Kitchen](#)

Tags: [kitchen](#) [organizer](#) [bag](#) [cutter](#) [storage](#) [roll](#)

**FROM MESSY TO TIDY:** Are you frustrated with opening the drawers that had the bags and wraps as they would always cause the drawer to get stuck? Here is the solution. Cut the clutter and have an organized kitchen drawer with our plastic wrap dispenser with a cutter and baggie organizer. Your drawer will change to be an organizer's dream.

**All-in-One BAGGIE & WRAP ORGANIZER:** 1 This set contains 3 in 1 foil and wrap dispenser with the cutter, perfect for Aluminum foil, plastic wrap, and wax paper. Please kindly note: only fits wrap rolls that length is  $\leq 12$  inches, and diameter  $\leq 2$  inches. 2 Food storage bag organizer: compatible with storage, freezer, and slider bags of sandwiches, quarts, snacks, and gallons.

8-in-1 Storage Bag Organizer for Kitchen Drawer, Foil, Wax Paper, and Plastic Wrap with Cutter, Organizers Gallon, Quart, Sandwich Snack Size bags.

**Warning: LARGE PRINT - PRINT THIS ON LARGE PRINT BEDS** - The

roll model is 300mm Wide and the Bag organizer is 300x230mm. **Be sure to measure your drawer to scale the print for non-standard 12" x 15" drawers.**

### 3D PRINT FILE SETTINGS

Recommend PLA for the Box / PETG for the cutter

.2 Layer Height

Recommended Perimeters: 3

3 layers Top and Bottom

Recommended Infill 15-20% rectangle or strongest pattern

Needs Support: No

#### Fine Tuning

Make sure to tune your bridging settings for overhangs.

on my Creality K1 and K1 Max I use Flow Ratio 1.05 and Bridge Flow .9

#### Color Changing: Yes

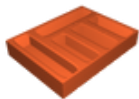

Print has raised text for color swapping, in OrcaSlicer, at layer 215 (.2 layer height) approx or 314 (.16 layer height)

**Warning:** Sharp things are sharp!

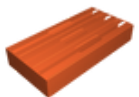

This model cutter requires 1 sections of 18mm snap off razors such as these [cheap refills](#) for \$5. Or [with the tool](#) for \$11. **DO NOT USE** the thinner 9mm versions. Insert the blade into the cutter to ensure it fits, take it out and use a small dab of super glue on the sides of the blade then reinsert it in quickly and safely before the glue dries.

Remix of Cutter and Inspiration of the Rail from [@profallout](#)'s **Slide Cutter For Plastic Wrap** <https://www.printables.com/model/443988-slide-cutter-for-plastic-wrap>
