Tags: [box](#) [rocket](#)

This model is a rocket-shaped container. I personally created it to give chocolates to a friend.

Assembly may require sanding or adjustment of print settings.

There are 3 holes on the main part that correspond to the aileron holes. Cut a small piece of filament and place it in two holes so that they match. This makes assembly easier so that the fins are at the same height. You can use hot glue to glue the fins.
