updated 30. 4. 2024 | published 30. 4. 2024

Summary

Helipad compatible with Duplo bricks. Big enough to place an original Duplo helicopter on it.

[Toys & Games](#) > [Building Toys](#)

Tags: [duplo](#) [helicopter](#) [duplocompatible](#) [helipad](#)

Requires a 2x2 brick to attach it to.

Model files available for single color or dual color print.

For dual color print, simply glue together all parts.

The "H" may need to be printed smaller (about 1%) depending on the calibration of your printer.

Update 30.04.2024: added a more stable part

"Duplo_Landeplatz_01_verstärkt" with larger radii and a stronger middle circle.

Printing parameters:

Material: PLA / PETG

Layer height: 0.2 mm

No support needed
