### **Note about the files:**

The files are ideal for 3D printing and intentionally not overloaded. We recommend matte black filament or resin.

The package includes a pre-cut model for large-format printing. It is cut in a way that requires minimal support structures, making the printing process as simple as possible.

### **License Information:**

These files are available under the "Royalty-Free License." This means that printed or otherwise created versions of this model cannot be used or sold for commercial purposes.

If you wish to use the model for commercial purposes, you can purchase a corresponding commercial license by checking the appropriate box during the purchase.

**The distribution of STL files is not allowed.**

### **Watermarks and Modifications:**

The original STL file as well as modified variants may not be altered or sold, as they are protected with a digital, invisible watermark.

If you desire modifications to the model, please contact the designer, Bernhard Queißer, from QU3D in Germany. He is open to dialogue and happy to discuss your modification requests.

### **Note for Business Owners:**

As a customer, you are responsible for complying with the license terms and ensuring that the use of the model meets your requirements and the license conditions.

### **Print License for Business Owners:**

The model can be purchased for commercial purposes for resale, exclusively as a printed model through the commercial license.

Please note that the 3D print file may not be modified without prior consultation with us (Qu3D 3D Design Art). Furthermore, the sale of the 3D print file is not allowed and is subject to licensing.

When purchasing the model, you have the option to select this option.
