### Summary

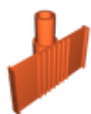

T-End Garage Door seal to use on shortened ends. Overhead door bottom seal for dual channel doors.

[Household](#) > [Garage](#)

Tags: [door](#) [seal](#) [garage](#)

T-end Garage Door seal. Created to solve the problem of ends shrinking over time and allowing rodents in. Take this and enlarge or reduce to your needed length. The inner tube slides into the existing tube to hold it in place. I recommend rubber cement before you join them to hold it securely.
