This is a drop in replacement for the x and y limit switch end stops for the FoxAlien 4040-xe. I lost one so i just made and printed out new ones. They are slightly more lower profile than the stock ones, but the switch still hits it with plenty of room to spare. So if youre like me and lose or misplace things, go ahead and print one out! Or if you just want to add a bit of flare to your humdrum cnc, print all 4!
