updated 7. 1. 2024 | published 7. 1. 2024

### Summary

I made a dice for the Prusa Balance Game before & it was fun but i wanted to make the game much more fun so i made this!

### Prusa Game Dice [EXTREME]

Want to spice up the game even more, Well i got the perfect dice to make it much **harder** and **fun**.

This dice includes:

Add 1P, Add 2P, Add 3P, Add 4P, Add 5P

Move a Player.

To make it even more hard/Fun, When someone rolls Move a Player Then the person needs to roll the dice again to see how many players. (If another Move then the turn goes over to the other person)

## Game Rules:

Person1 Rolls the dice. If it says 1 or any other number then the person needs to add that amount of players to the game. If it lands on M then you need to move a Player but if landed on the first round you can reroll.

Then it just looping until it falls. If Person1 lays a player and it falls then Person2 Wins!

**GOOD LUCK!**

## This remix is based on

### Prusa balance game
