Summary

5 lids hanger to be fitted under shelves in the cabinet or storage room

[Household](#) > [Kitchen](#)

Tags: [ikea](#) [holder](#) [hanger](#) [lid](#) [lidholder](#) [lidhanger](#)

Based on original work of Simon I have created 5 lids hanger to be fitted under shelves in the cabinet or storage room.

On top there is a lip 19mm (0.74 inch) to be fitted on the back of the shelf. European standard is 18.5 mm so it fits just right.

Printed using Impact PLA with 0.6mm nozzle. 15% infill.

This remix is based on

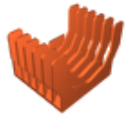

IKEA 365+ Lid Holder - Kitchen organizer

by Simon Strandvold
