Summary

Onewheel Pint stand to hold your board during vehicle transport. Designed to fit on the smaller bed of the Prusa Mini.

Tags: [onewheel](#) [onewheelpint](#)

I really liked Asuswild's stand, but it would not fit on the bed of my Prusa MINI. I simply used Tinkercad to chop off the sides and make it fit. Works great and as a plus it uses less material.

Works with or without the official Future Motion fender and rail guards. The Pint can also be placed on the stand with the Mag handle either up or down.
