Summary

Case to keep the cable tangle free

[Gadgets](#) > [Audio](#)

Tags: [case](#) [earphones](#) [iem](#)

A case to keep my iem cable tangle free.

The model is not perfect. As you can see in the images I drilled a small hole on the side to insert the 3.5mm jack so the cable stays in place when wrapped around.

Inspired on <https://www.printables.com/it/model/152579-cca-c12-iem-earphone-wrap-case/files> but the C10s have a different cable so my iems wouldn't have fit that model.
