Summary

Motorola charger and radio holder for cars - fits easily into drink holder.

[Hobby & Makers](#) > [Automotive](#)

Tags: [holder](#) [charging](#) [radio](#) [motorola](#)

Idea came to my mind when I obtained original holder from producer, which needs to be screwed with 4 bolts onto car front panel.

Basement piece fits into drink holder and charger holder can hold charger and radio station at the same time.

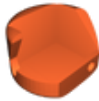

Basement and charger holder must be glued together. I've used Loctite for PLA prints.

Its practical, works like hands-free for radio, it can be easily taken out if needed.
