This is version 3 of the Loctite Glue Tidy, enabling a centralised holder for several of the 20g Loctite variety of glues and bottle holder for the SF770 glue primer (used with Loctite 435.)

Update: V3.1 added, where the centre and front-right wells are taller, the front-right well now also being large enough to accommodate the Loctite 20g glue bottle. The outer walls of the model are slightly thicker and more robust.

It also works well as a standard office desk tidy for pens, paperclips, erasers etc. - the centre well also being able to hold the obligatory bottle of Tippex... ;-)
