I made this model as a gift for a friend.

It consists of 2 parts, the main ashtray and the spinning roulette.

You will need a small metal ball, such as a 6mm steel ball ring (as shown in the photo).

It has 55 filament changess. Used 106 grams on the bamboo labs p1s with AMS.

time to print is 3h33. The colors you need are black, white, green and red.

nice for the men's cave.

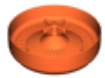

And please dont forget to upload your make of it.
