Summary

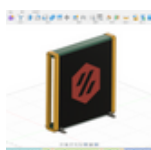

A 5pc plate rack for Bambu sized build plates - I'm sure it'll work for 250mm sized ones too

[3D Printers](#) > [Bambu Lab Parts & Upgrades](#)

Tags: [buildplate](#) [bambu](#) [buildplateholder](#) [bambulab](#)

This one is a remix of the original design with dimensions suited to 250-260mm sized build plates. I have this same design on my 300 Trident and 120 V0 and just love it. So no reason not to make one for the Bambu as well! All holes are pre-threaded and takes M3 hardware without issue while still being sturdy once assembled.

This remix is based on
