Movement Tray for Conquest: The last Argument of Kings

The cutouts are designed for the connector and the addon. It can also be used for my diceholders I created.

- This is designed for Brute/Cavalry Stands, because they are just a little bit bigger than the Infantry Stands.
- I added a support in the middle, so that it will hold better, if you move them away from the board.
- The Connector is used to connect 2 Movement Trays with the stands.
- The Addon is used to add 1 Stand to the Movement Tray like a Character.

I put all of my things for Conquest in this collection: https://www.printables.com/de/@Godar27_758804/collections/1147861
