A replacement/replica weapon for Transformers G1 Cyclonus.

This is not an exact replica to the original toy accessory but is close enough. Modelled from reference photographs as a replacement gun for my personal Cyclonus figure.

The original figure has a 4mm sized fist-hole, but I have also included a version with a 5mm peg so it is also compatible with modern 'bots.

By coincidence, the blaster is Blooooooosh! compatible as well.

Print Settings

Printer Brand:

Creality

Printer:

Ender-3 v2

Rafts:

No

Supports:

Yes

Resolution:

0.16mm

Infill:

20%

Notes:

Print in the default vertical position for the best results, with build-plate only supports.

Make sure you print the correct version of the weapon for either a G1 Cyclonus or a modern 'bot with the 5mm fist.

Post-Printing

The 5mm version may need some light sanding on the peg to ensure a snug fit.
